YOUNG LEADERS IN AGE SERVICES

State Forums

Are you ready for an event that recognises us, the young professionals in age services?

The age services sector is full of dynamic, inspiring and passionate next generation leaders who are leading in our organisations - from bedside to boardroom.

Next Gen is inviting young leaders to a one day forum that will connect us with other young leaders and ensure we are ready to take on the age services challenges of the future.

Age services is incredibly special, *because of you.*

Join us to connect with Next Gen Ambassadors and learn from our peers from different professional backgrounds who LOVE supporting older adults to live their best lives.

Too often, our Next Gens have been the youngest in the room without opportunities to connect with passionate people their own age, share challenges, hear about great leadership, and learn how we can all build the workplaces of the future.

Let's create the future of age services together and show the world that young people are leading, innovating and LOVE being involved in a sector that supports older adults to age well.
