

End of Life Directions for Aged Care

FREE Aged Care Workshop

**30th October 2019
Adelaide SA**

For Residential and Home Care managers, nurses and care workers

End of Life Directions for Aged Care (ELDAC) is a nationally funded project to improve palliative care and advance care planning for older Australians.

ELDAC is running a series of **free** workshops designed for Residential and Home Care managers, nurses and care workers. Anyone providing palliative care or advance care planning to older people will find this workshop useful.

Learning Outcomes

- Increased knowledge of the role of palliative care and advance care planning within the aged care sector.
- Familiarity with the ELDAC Care Model and key information and advisory services of ELDAC.
- Ability to select and apply resources and information found within the ELDAC toolkits to meet the Aged Care Quality Standards.
- Understanding the end of life legal issues encountered in aged care.
- Recognising the importance of mutually beneficial partnerships between primary care, aged care services and specialist palliative care.

Registration is Essential

For more information and to register for this **free** workshop visit the **LASA Congress Website**
